

PisaFest

CAV/LPP
45 rue des Saints Pères
salle H432

jeudi 15 avril / Thursday April 15

Heure/Time	Présentations
14H30	Patrick Cavanagh: Attending and enumerating
14H45	David Burr: Seeing objects in motion: the spatio-temporal receptive field
15H00	Tomas Knapen: Remapping features.
15H15	Marco Cicchini: Spatiotopic coding of event time – adaptation studies
15H30	Thérèse Collins: Cross modal position illusions
15H45	Martin Szinte: Temporal dynamics of remapping captured by peri-saccadic motion trace.
16H00	Pause café / Coffee Break
16H45	Maryam Vaziri Pashkam: Speed distortions at low luminance
17H00	Roberto Arrighi & Eckart Zimmerman: Retinotopic adaptation of size and biological motion – perceptual reports and saccades.
17H30	Tom Otto: The return of the race model
17H45	Pascal Mamassian: Very surprising talk
18H00	I-Fan Lin: Localization and identity memory of the saccade target.
19H30	Dinner at the l'Enfance de Lard

vendredi 16 avril / Friday April 16

Heure/Time	Présentations
9H30	Concetta Morrone: spatio-temporal plasticity of remapped receptive fields mediate saccadic stability
10H00	Remy Allard: Efficiency of averaging orientation
10H15	Bilge Sayim: Popout and crowding
10H30	Simona Buetti: Response programming in stimulus-response compatibility
10H45	Patrick Cavanagh: Nonretinotopic masking
11H00	Pause café / Coffee Break
11H30	Sofia Crespi: MT and spatiotopy
11H45	Tomas Knapen: Shape specificity of saccadic remapping
12H00	Arezoo Pooresmaeili: A model of object-based attention for spatially extended objects.
12H15	Andrei Gorea: Perceived duration in a synchronization task
12H30	David Burr: Space, time and stability
13H00	Lunch at Chez Fernand
14H30	Dessert, coffee, informal but profound chit-chat
